Helpful Tips and Information for Single Sign-On (SSO)

- Install the Clever extension in your browser so that SSO can take care of the logins for you automatically.
- Use Chrome or Firefox browser for PC and Firefox for Mac.
- Parents/Guardians please assist your student to select secure passwords that include letters, numbers and symbols. Do **not** use date of birth or other personal information.
- New students are provided login information by their school. Returning students can use their existing log in information; a new password is strongly recommended every three to six months.
